

Oyen's Eleventh Annual Summer Fair -- July 23 and 24

"NESCO" OIL COOK STOVES With the famous ROCKWEAVE WICKS

The absolute satisfaction given by Nesco oil cook stoves can be proved by evidence of many thousands of users, better still, by actual demonstration right in ones own kitchen.

There is a right size and style for any purpose.

It Bakes—Boils—Roasts—Toasts. Surely, cleanly, without soot, quickly and easily.

Ladies Imperial Orchestra in Oyen, First Night of Fair

The management of Oyen Theatre has just completed arrangements with I. F. Shaker to bring his famous Ladies Orchestra to play for a dance the first night of the fair. This orchestra, although just recently organized, has made a tremendous hit wherever it has played. W. W. Grant, says of it: "The Girls Orchestra is a real knock-out. I have never broadcasted a better orchestra -- and I have put over some good ones." If you enjoy good music as well as singing, be at Oyen Theatre on Thursday night, July 23.

Wool Clip in South

Southern Alberta's wool clip this season will reach one million pounds, with a total value of \$350,000 it is estimated.

Mammoth auction sale at the farm of the late Johnson Craig, 34 20-4, 6 miles south of Oyen, to-morrow.

Eleventh Annual Fair Next Week

Arrangements for the eleventh annual fair of the Oyen Agricultural Society, which will be held next week, are practically complete. During the last few years, the society has been hard pressed for funds, and it has been no easy matter to maintain the high standard of past fairs. It is hoped, this year, with more general favorable conditions, that this year's exhibition will go over the top with flying colors.

Exhibitors are asked to get their entries in early to avoid crowding the work at the last. If you have anything to show, bring it in. Let others see what you can do. With more entries it naturally follows there will be a greater interest taken in the exhibition and the success of the fair is something that every resident of the district should take an active interest in.

"Be at Oyen for the Fair."

Coal Shipments Start to Ontario

First shipment of 25,000 tons of Alberta coal to Ontario was started during the past week by the Canadian National Railways. There will be no over-shipment by government authorities on the costs of handling.

Premier Returns from East

Premier Greenfield returned from Ottawa last week, following several weeks of negotiations with government and Railway authorities with respect to the Peace River Railway situation, the natural resources question, etc.

Two delinquent offers in connection with the solution of the railway situation with respect to the disposition of the E. D. and B. C. line to Peace River, have been received, one from the C.P.R. and the other from the C.N.R. These are now being considered by the government, in conjunction with the Royal Bank, which has assumed the interests of the Union Bank in the railway line. The consent of this bank will be necessary to any deal which is made. Complete details of any plan decided on will be ready for the adjourned session of the legislature when it is called.

Calgary's Big Jubilee

Total attendance at Calgary's big stampede and jubilee the past week reached more than 178,000. Visitors from all parts of the continent were in attendance, including many special writers and motion picture men to record the celebration of the fiftieth anniversary of the establishment of Fort Calgary by the mounted police. A historical pageant more than five miles long was the opening feature of the jubilee.

A forecast of the United States wheat crops by the United States department of Agriculture indicates that the part which Canada must play in supplying the world's wheat market will this year be more important than ever, as a falling off of 212,000,000 bushels is anticipated in the United States. Canada is already the largest wheat exporter in the world and these figures indicate that she is within considerable distance of becoming the largest actual producer.

A 26-story structure, to be known as the Canadian National Building, 295 feet high and costing \$2,500,000, is to be erected on the northwest corner of King and Yonge Streets in Toronto. It is to be built by a private company, the Dominion Building Corporation, but the largest tenant will be the Canadian National Railway, and the Railway gives its name to the structure. It will be the highest office building in the British Empire.

More than 5,000,000 seedlings and cuttings have just been supplied by the Dominion Forestry Farms at Indian Head and Sutherland, Saskatchewan, to 6,500 farmers in the three prairie provinces. These trees are supplied without charge to the farmer, but he is required to give them proper attention and cultivation. Many millions of trees have been planted in this way between the Great
